

C&S Air Products

Who We Are:

C&S Air Products is an HVAC manufacturing facility focused on delivering quality products, on time and at competitive prices. With its large assortment of HVAC products, C&S can satisfy a wide range of project requirements. Our skilled and versatile staff ensure that all engineering and customer service challenges are met quickly and efficiently.

Product Offerings

- Ceiling Radiation Dampers
- Air Control and Backdraft Dampers
- UL Rated Fire, Fire-Smoke and Smoke Dampers
- Louvers
- Actuators and Accessories

We sell our quality products across the United States from two manufacturing facilities through local representatives. To maintain our product quality, C&S is committed to accurate and credible performance data. This is highlighted by our state-of-the-art in-house testing laboratories. We feature an elevated temperature lab as well as a wind-driven rain and water penetration lab.
