

Application

The WHI-20 angle installation angle set consists of 1-1/2" x 1/2" x 20 ga. angles used with Warnock Hersey approved installation instructions to install ceiling radiation dampers in wood truss applications. Each set consists of two 28" long angles and two 3" long angles that are attached to both the damper frame and wood structure of floor/ceiling and roof/ceiling assemblies rated for duct penetrations of the ceiling membrane.

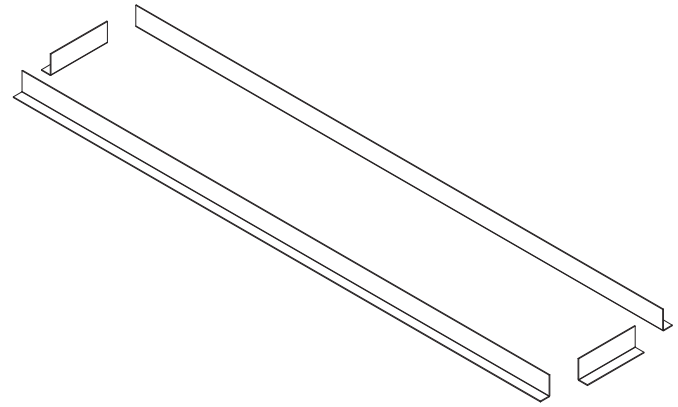

General Construction

WHI-20 installation set:

2 angles 1" x 1/2" x 28" long (25 x 13 x 711) x 20 gauge (1.0)
2 angles 1" x 1/2" x 3" long (25 x 13 x 76) x 20 gauge (1.0)
